

Karina: Hi, my name is Karina.

Laker: And my name is Laker.

Karina: Today we will be showing you how to add photos using the research tool.

Laker: First you need to log into google drive.

Karina: Then you need to make a google doc.

Laker: If you don't know how to login to google drive or how to make a google doc then you will need to watch our other videos.

Laker: Go up to the tools button and click it and go to where it says research.

Karina: Then, you click on the images and you can type in the search button.

Laker: And it will show the results it generated.

Karina: When you find the image that you want to use just click and drag it into your Google doc. It will automatically cite the photo source for you. Just scroll down to the bottom of the page.

Laker: And there will be a link for the picture that is your photo source.

Laker: If you want to see some more tutorials on anything else, please put it in the comments below.

Karina: Thanks for watching!
