

Eli: Hi, my name is Elias but you can just call me Eli.

Marc: And my name is Marc.

Eli: We will be giving you a tutorial on how to start a Google Doc.

Eli: This is how you do it:

Marc: First, make sure you're logged into your Google Drive. If you don't know how to do that then you'll need to watch the tutorial titled, "How to login to Google Drive."

Eli: Once you're on Google Docs, you will see, at the top, six sample documents.

Eli: One of sample documents will be blank and will have a plus in the middle of it.

Marc: If you click on that one, it will create a completely blank, new document.

Eli: Now, you have a new Google Doc!

Eli: Thank you all for watching this tutorial. Don't forget to watch the tutorial about "How to Title a Google Doc!" And we will see you all later. BYYYYEEEE!

(Record on Eli's computer)
