

Makerspace Fraction Challenge

Project Self-Reflection

Student Name: Karina

Project Name: The Fraction Target

1. What is the most important thing you learned in this project?
 - a. That you can add fractions together and make another fraction.
 - b. The fact that you can realize fractions aren't just math but they are also fun, different, and new things you can make out of fractions.
 - c. You can make anything out of fractions.

2. What do you wish you had spent more time on or done differently?
 - a. The Instructions because we did not finish our instructions.
 - b. I could have done the targets differently.

3. What part of the project did you do your best work on?
 - a. The rules because their are lots of things to know like three teams, five cotton balls and more.

4. What was the most enjoyable part of this project?
 - a. The cards, Why? Because I loved to make the fractions on them like the $\frac{1}{4}$ and $\frac{1}{2}$ and $\frac{1}{3}$ with the bendaroos.

5. What was the least enjoyable part of this project?
 - a. I think I could have made the planning better..

6. How could you change this project to make it better next time?
 - a. I could change the girl's hair color on the poster to brownish yellowish.
