

# Makerspace Fraction Challenge

## Project Self-Reflection

\*\*\*\*\*

Student Name: Laker

Project Name: Makerspace challenge

What is the most important thing you learned in this project:

- *I learned that fractions can be fun.*
- *I learned more about how creations can look more realistic.*

What do you wish you had spent more time on or done differently:

- *I wish I could have made attachments so when you upgrade your dragon you can hook an attachment to your dragon.*
- *I wish I made a more convenient food storage.*

What part of the project did you do your best work on:

- *I think I worked best on the creating part of the project.*

What was the most enjoyable part of this project:

- *The most enjoyable part of the project was probably letting Marc play it.*
- *The most cool part was building it.*

What was the least enjoyable part of this project:

- *My least favorite part was writing the script to the commercial because it was a writing part. I enjoyed the building part of the project more.*

How could you change this project to make it better next time:

- *I think it would be better if I didn't work with three or four people next time.*
